

ELOF handlers for pallets

Impressive load capability for its size.

ELOF's Heavy Load Handlers have been designed for the indoor transport of heavy products on the production floor and in the storage and shipping areas. Tested during more than 10 years in the most demanding environments, the ELOF platform is based on a rugged drive unit and an application specific load unit. Utilizing a patented 'low lift' technology, the ELOF Handler lifts up to 50 tonnes and does not use (and thus does not need to carry) a counterweight in its design. This unique method minimizes wear and maintenance and allows use in areas normally not accessible by heavy transport vehicles.

COMPACT SIZE

Small footprint facilitates access to the tightest spaces.

LOW WEIGHT

Minimizes damaging floor pressure and power requirements.

ELECTRICAL DRIVE

Generates no exhaust emissions.

ELOF handlers for pallets

Read more at www.elofhandler.com

The wider use of Elof technology is possible with a standardized load carrier like a pallet.

The transfer of heavy machinery, parts, molds, tooling, cargo, etc., indoors on the production floor, or in storage, can be done with minimal floor

pressure and no emissions. Elof handlers lift up to 50 tonnes and lifting forks can be designed to suit almost any pallet; either fixed or adjustable in width.

For steering a joystick is standard; an optional steering wheel is available:

Max. load (tonnes)	Model	Power	Lifting forks	Driving position
7	P07110	80 V, 250 Ah	Fixed/adjustable	STB
7	P07120	80 V, 250 Ah	Fixed/adjustable	SIB
15	P15110	80 V, 250 Ah	Fixed/adjustable	STB
15	P15120	80 V, 250 Ah	Fixed/adjustable	SIB
30	P30210	80 V, 375 Ah	Fixed/adjustable	STB
30	P30220	80 V, 375 Ah	Fixed/adjustable	SIB
50	P50310	80 V, 625 Ah	Fixed/adjustable	STB
50	P50320	80 V, 625 Ah	Fixed/adjustable	SIB
50	P50330	80 V, 625 Ah	Fixed/adjustable	SIT

STB = Standing behind drive unit, SIB = Sitting behind drive unit, SIT = Sitting on top of drive unit

Other specifications on request. Contact your ELOF representative.
