NEW ELAN 360 PRESS RELEASE

Begunje na Gorenjskem, 13.08.2013

elan

Elan's performance range is about to get richer for another new model – Elan 360.

Following the Elan's 400 sexy design, the new 360 embodies what Elan performance yachts represent. Featuring all the advantages that got her predecessor a European Yacht of the year award and benefiting from some exciting new solutions such as lower companionway and rotating plotter pods she really is unique in her class.

Apart from her breath-taking design she inherited some features from her big sister, Elan 400 such as integrated toerail, smart deck layout with flush deck hatches and interior design with a new Fjord Mahogany furniture option.

Elan 360 also benefits from optimized twin rudders, recessed mainsheet traveler, and the additional stern cabin portlight facing towards the transom.

To maximize the fun factor under sails and optimize the performance and speed Elan 360 will also be available in the S upgrade featuring full VAIL hull and deck lamination using vinylester resin, stronger composite main bulkhead, and lighter furniture, which results in 7% weight reduction.

By using vinylester resin and lighter interior furniture the boat is faster, stiffer and osmosis-proof without having to sacrifice comfort.
