

NOUVEAU CONTOUR®
MASTERS IN MICROPIGMENTATION

smart

smart

The SMART choice for all
micropigmentation procedures!

Nouveau Contour SMART. The smart choice for all micropigmentation procedures.

A compact device with easy operation and an excellent price/quality ratio. Design and functionality are united in a modern, hygienic and efficient look. The SMART is a premium class device that offers you more mobility due its compact dimensions. With 70-150 needle insertions per second and 19 needle formations to choose from, this small but powerful device is ultra precise. Which makes Nouveau Contour SMART a clever choice for all micropigmentation procedures, such as eyebrows, eyeliners and lips.

Be clever, choose Nouveau Contour SMART!
